COVID Compensatory Services (CCS) are a school district’s remedy to provide services to students with disabilities if they had skill and/or behavior loss that resulted from the district’s inability to provide a Free Appropriate Public Education (FAPE), due to the forced pandemic closure. Services are delivered through the BOOST program.

Eligibility Considerations

- Progress monitoring data (on all goals)
- Student’s ability to access learning (attendance)
- Student’s engagement level
- Parent input

C. Additional Insured Status: The District shall be added as an additional insured for the General Liability and Umbrella Liability policies under a Blanket Additional Insured Endorsement on the referenced policies.

• Please note, the OST team staff are not lawyers or insurance providers. Specific questions regarding the insurance requirements should be directed to your organization’s insurance agent.
COVID FAQs

District Health and Safety Plan - https://www.pghschools.org/healthandsafetyplan

• Will students, teachers, and providers be required to wear mask all day?
  • Yes

• How will the district handle situations when students refuse to wear a mask or take off the mask during instruction?
  • An addendum to the District’s Student Code of Conduct has been submitted for approval to the Board of Directors to address expectations for conduct during E-learning and while in schools.

• What happens if a student or teacher tests positive for COVID?
  • As part of the District’s contact tracing process, anyone (students and staff) that may have been in close contact with a positive case will be personally notified and provided next steps. Close contact are individuals who have been within 6 feet for longer than 15 cumulative minutes within a 24 hour time period.
  • If a student, teacher or staff member tests positive and has entered the building in the past 14-days, the District will notify all families and school personnel. The school facility will be cleaned. The positive student, teacher or staff member will be isolated for 14 days. Contact tracing will occur, and potentially exposed students or personnel will be contacted regarding quarantine and testing expectations.

• Will schools have nurses available at all times?
  • Yes
COVID FAQs

• Will someone be doing temperature screenings at the door?
  • The District has developed the COVID-19 Self Screening Tool to assist families and employees for daily assessment for COVID-19, prior to arriving to school. Anyone exhibiting symptoms should stay home. Families and staff should notify their school principal or supervisor if they have been tested or considered presumed positive for COVID-19.

• What will be the cleaning protocol for the schools?
  • Custodial staff will be cleaning high-level touchpoints and restrooms throughout the school day. Custodial staff disinfecting in the evening will do so using the CDC recommended Environmental Protection Agency (EPA) list approved disinfectant products.

• What types of EPA products will the District use?
  • The EPA has compiled a list of disinfectant products that can be used against COVID-19, including ready-to-use sprays, concentrates, and wipes. Each product is effective against viruses that are harder to kill than viruses like the one that causes COVID-19. The District will use a combination of the above.

• How will the District’s schools and facilities be cleaned?
  • The District has a framework for cleaning and disinfection practices that is based on doing the following:
    • Frequent cleaning with a peroxide-based cleaner and a color-coded microfiber rag will decrease how much of the virus is on surfaces and objects, which reduces the risk of exposure during the day.
    • Daily disinfection of surfaces and objects using EPA-approved disinfectants
