SAMPLE

BOSTON SUMMER PROGRAM DATA DASHBOARD

For information on the importance of reporting program quality data and ideas for using reports effectively, review [Boston Summer Program Data Dashboard Guidance](#).

This sample data dashboard is used to share and compare measures of program quality at each of the sites in the 5th Quarter of Summer Learning (formerly the Boston Summer Learning Project). This dashboard integrates several measurement tools to provide a snapshot of program quality, enabling program providers to identify strengths and weaknesses and pursue continuous improvement in a standard process.
