### DALLAS SUMMER CATALOG (ENGLISH)

For information on the importance of comprehensive summer program catalogs and tips for developing effective catalogs, review [Summer Program Catalog Guidance](#).

The Toolkit includes five summer program catalog samples from three different school districts. These samples are comprehensive guides of the district-sponsored and co-sponsored programs provided for students during the summer. Each sample catalog includes an overview of the district's summer learning approach, program descriptions, schedules, administration contacts, eligibility requirements, and enrollment procedures.

# SUMMER BREEZE 2021

## SUMMER LEARNING GUIDE

## Welcome Dallas ISD Families

Summer is an exciting time filled with fun and exploration. This summer, Dallas ISD will provide a comprehensive set of offerings to students, allowing them time to reconnect with their peers, engage in rigorous tasks, accelerate learning, and improve their social and emotional wellbeing.

We know students engage and perform better in academic settings when their holistic physical and emotional needs are met. Summer Breeze 2021 is designed to address these needs, to prepare students for future learning opportunities, and to energize students for the upcoming school year.

**Experience Summer Breeze by following the quick steps listed below.**

### STEP 1 EXPLORE OPPORTUNITIES

Summer activity descriptions, learning methods, locations, and contact information are listed throughout the Summer Learning Guide.

### Step 2 ENROLL YOUR CHILD

Once you select your activities or programs, use the provided contact information to get your child enrolled.

### Step 3 JOIN US AND FEEL THE BREEZE

Once enrollment and registration are complete, mark your calendar and get ready for your child to have a great summer learning experience.

To best meet the needs of students and families, three learning methods will be offered to students this summer. Learning methods vary by program and/or campus. Please refer to the program listings for more details.

## IN PERSON (FACE-TO-FACE)

Learning happens in a traditional in-person setting with a teacher on campus. All health and safety guidelines will be followed.

## VIRTUAL

Learning happens in both a synchronous and asynchronous distance learning model. Synchronous learning takes place virtually during an assigned date and time utilizing video conferencing. Students engaged in asynchronous learning will follow an assigned schedule. The asynchronous model will have times during the day for synchronous instruction via video conferencing. During the synchronous instructional time, the expectation is that the assigned students will attend class virtually at the assigned time and attendance will be taken.

## HYBRID

This learning model is a combination of in-person (face-to-face) and designated distance learning dates and times. This model is structured but allows for student participation in hands-on courses and other opportunities.
